

# Quick Installation Guide

This guide provides basic instructions for installing the GESVATEC Labelling Software in your computer.

## 01.

## Requirements

- » PC with Windows 8 or Windows 10 or higher
- » User account with administrator privileges
- » Internet connection
- » GESVATEC Labelling Software installation file
- » Have the Windows printer drivers installed

## 02.

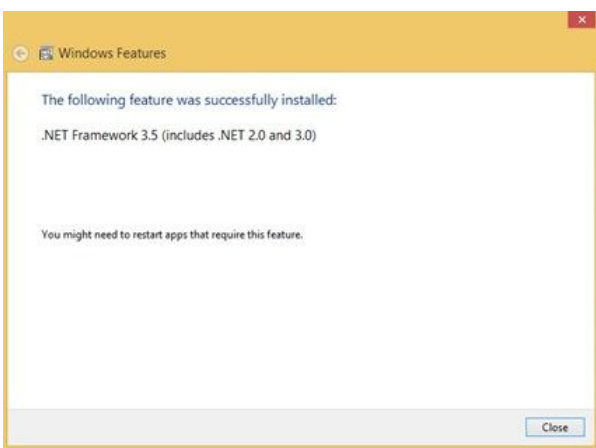

## Installation

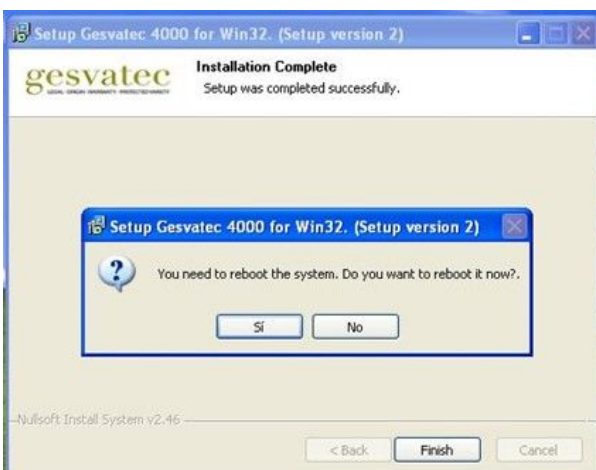

Run the installer, click "Next" and accept the license agreement.

**Important!** Select your Windows version when prompted.

Windows might ask you to install the feature **.NET Framework 3.5**. If so, select *Download and install this feature*. when the installation finishes, close the windows.

When the installation is done, reboot the computer.
